LANDSCAPE IRRIGATION

...is the greatest area for potential water savings in Northern Utah. On average, the majority of water users overwater their landscapes by a significant amount. We value green, well kept landscapes and know that landscapes create pleasant and needed areas in urban settings. A few principles that will help you be water-efficient outdoors include:

- PLANNING AND PROPER DESIGN
- UNDERSTAND SOIL CHARACTERISTICS
- PLANTING THE RIGHT PLANT IN RIGHT PLACE
 - APPROPRIATE LAWN AREAS
 - SIMPLER, EFFICIENT IRRIGATION
 - PROPER USE OF MULCHES
 - PROPER MAINTENANCE

MARCH

BEST PRUNING PRACTICES: (FRUIT TREES AND GRAPES)

Saturday, March 4 10am - 12 noon
David Rice - Weber Basin Water

When and how should you prune your fruit trees? Learn how to maximize the productivity and vigor of your home orchard with basic and best pruning principles. Pruning is the key to large fruit and healthy, manageable trees. If you have fruit trees, this class is a must!

Other pruning classes are available through USU Extension. Call USU for details and locations: Weber County: 801-399-8201 Davis County: 801-451-3403

EARLY SEASON VEGGIES:

Wednesday, March 15 6 - 7:30 pm
Britney Hunter - USU Extension Agent

The mornings may still be frosty, but you can get a start with your garden anyway. Join us to learn which veggies to get started early and the best ways to grow them. This will be a great class to learn how to extend your growing season for more veggie enjoyment.

BEST PRUNING PRACTICES: (TREES, SHRUBS & ROSES)

Saturday, March 25 10am - 12 noon
Jaydee Gunnell - USU Extension

This class will teach you the "whys" and "hows" of pruning, making the task as simple, enjoyable and fearless as possible. Class will cover ornamental trees, shrubs and roses.

APRIL

SPRINKLERS, TIMERS & TUNE-UPS

Wednesday, April 12 6 - 7:30 pm
David Rice - Weber Basin Water

Are you overwhelmed by your sprinkling system and you don't know how long or how frequent to water? Learn how to conquer your system and adopt water saving practices while maintaining a green and healthy landscape. We will also be discussing smart controllers and their benefit.

FILLERS, SPILLERS AND THRILLERS CONTAINERS FOR EVERY SETTING

Saturday, April 22 Ken Cox - Perennial Favorites 10 - 11:30 am

Come and learn how to make your pots and containers look amazing. Learn to create classic annual, partial perennial, or mixed containers full of color and interest for year round enjoyment.

LOCALSCAPES 101

Wednesday, April 26 Weber Basin Staff 6 - 7:30 pm

If you're overwhelmed trying to install or improve your landscape, this introductory Localscapes class will expose you to the best way to landscape in Utah. Ready to increase the usability and curb appeal of your yard while decreasing your yard work? ****Prerequisite for Localscapes University.**

MAY

SUMMER VEGGIES

Saturday, May 6 Weber Basin Staff 10 - 11:30 am

Now that the forecast calls for warmer temperatures, learn how and what to grow for your summer harvest. This class will focus on all warm season crops and how to be successful in reaping a bountiful harvest.

FLOWER BED DESIGN BASICS

Wednesday, May 10 Marci Wood - Weber Basin Water 6 - 7:30 pm

Many if not all of us have had "the bare and weedy flowerbed" that needs some work. If you aren't sure how to spruce up your space, join us to learn how to design a planting bed that will meet your needs, look great and require less water. This class is for all levels of experience.

LOCALSCAPES UNIVERSITY

Saturday, May 20 Weber Basin Staff 9 am - Noon

You're ready to take on a landscape project but not sure where to start: this 3-hour course will teach you the Localscapes method that will simplify the process. Included is training in irrigation, planting, and maintenance that will help you design a gorgeous yard which saves you time and money. **Prerequisite: Localscapes 101 - To get the most out of this class, attend Localscapes 101 first.**

SHADE GARDENS DONE RIGHT

Wednesday, May 24 Barney Barnett- Willard Bay Gardens 6 - 7:30 pm

Shade can be a big challenge and it can also create some of the best environments for some amazing plants. Come and learn how to have amazing shade gardens as you learn which plants to use and how to group them.

JUNE

SPRING GARDEN FAIR

Saturday, June 3
8:00 am - 2:00 pm (Details online) Free food, learning and fun!!
This will be a fun event with activities for the whole family.

PERENNIALS YOU NEED TO TRY

Wednesday, June 14 Bill Varga- Perennial Favorites 6 - 7:30 pm

Perennials are the backbone of nearly every landscape garden. There is a myriad of colorful and interesting perennials that thrive in our area. Let our expert instructor educate you on the traditional as well as the latest and greatest perennials.

LOCALSCAPES 101

Saturday, June 24 (same as April 26th) 10 - 11:30 am

ALL ABOUT BEES

Wednesday, June 28 James Parks- IFA Country Store 6 - 7:30 pm

Have you ever thought, "Hm, I kind of want bees but don't know anything about them." Come learn what all of the buzz is about. See how fun, hardworking, beneficial, and amazing bees can be!

AUGUST

BEST RESIDENTIAL LANDSCAPE TREES

Saturday, August 12 Marci Wood- Weber Basin 10 - 11:30 am

With so many features and qualities to choose from, there is a correct tree for every location and climate. Learn what to look for when searching for your ideal landscape trees.

BOTANY FOR THE HOME GARDENER

Wednesday, August 16 Janice Terry- Weber Basin 6 - 7:30 pm

Take a closer look into the inner workings of plants. Learn about plant structures and functions, and how gardening practices influence these vital plant processes.

COMPOSTING AND SOILS

Saturday, August 26 Janice Terry- Weber Basin 10 - 11:30 am

Soil properties play a major role in plant health, growth and overall appearance. Composting improves soil properties for optimal growing conditions. Join us to learn how to compost and create good, healthy soil.

SEPTEMBER

LOCALSCAPES UNIVERSITY

Saturday, September 9 Weber Basin Staff 9 am - Noon

(Repeat of May 20 Class)

ORNAMENTAL GRASSES

Wednesday, September 13 Weber Basin Staff 6 - 7:30 pm

Bring splendor, beauty, and grandeur to a landscape with ornamental grasses. If you aren't familiar with them, this class will educate you and show live examples to help get you excited about grasses.

SPRING COLOR FROM BULBS

Wednesday, September 27 Heidi King-Thanksgiving Point 6 - 7:30 pm

Discover the many amazing shades of early spring color with tulips, daffodils, crocus, hyacinth and many other fall planted bulbs. With a little effort in the fall, you will be rewarded with amazing color displays in the spring.
