

Sprinkler Type Reference Sheet

Restricted to 1x/week 20 minute run time

These types of sprinklers apply water at a high rate. Micro-spray, bubblers, and soaker hoses also fit into this category.

Fixed Pop-Up (Spray)

Hose-end spray heads

Restricted to 1x/week 40 minute run time

These types of heads and nozzles apply water at a slower rate because of the rotation over the area.

Pop-Up Rotary, Gear, or Impact Heads

Restricted to 1x/week 60 minute run time

This type of irrigation applies water at a slow rate.

Drip Irrigation with Emitters
